

Welcome to the IAS Online Resource Library

Welcome to the International AIDS Society Online Resource Library which is the gateway to the 21-year collection of the world's leading independent association of HIV professionals. The core of our collection is comprised mainly of abstracts and other documents related to the international conferences we organize, though it also features materials produced by the IAS secretariat.

The IAS is pleased to offer the contents of our library to the public, free of charge. We invite you to bookmark this URL and return to it often since the library continuously improves its services and new resources will be added on an ongoing basis. In addition, your comments, suggestions and questions are welcome.
